

PONTIFICIA UNIVERSIDAD CATÓLICA DE CHILE  
College of Engineering

**Major in Electrical Engineering**

**I. Program Educational Objectives:**

Students finishing successfully the program requirements obtain the Bachelor of Engineering Science Degree, with Major in Electrical Engineering.

The Program Educational Objectives for Major in Electrical Engineering are:

1. Our graduates will have the quality and proficiency necessary for professional practice in Electrical and Electronic Engineering, including technical skills in areas such as Robotics and Automation, Electrical Energy, Signal Processing, Telecommunications, Astronomical Instrumentation, and Electronics.
2. Our graduates will develop technological innovation projects in Chile and/or abroad, generating solutions to complex engineering problems.
3. Our graduates will seek to grow professionally through lifelong learning and/or graduate studies within Electrical Engineering and beyond.
4. Our graduates will demonstrate a critical spirit on their performance and will conduct themselves with a personal and professional code of ethics, seeking to serve society.
5. Our graduates will have the ability to analyze and understand the relationships between technology and organizations, applying engineering methodologies in order to improve the management of both of them.
6. Our graduates will be able to collaborate globally, participating in interdisciplinary and culturally diverse teams, and advance in leadership positions throughout their careers.

College of Engineering

## II. Student Admissions:

Students are initially admitted to a common study program that is the same for any engineering area. As student progress in time, programs differentiate according to the engineering area.

Student Admission*	
Year	N° Students
2011	543
2012	553
2013	716
2014	732
2015	719
2016	726
2017	732
2018	740
2019	772

\*Regular Admission (PSU) and Special Admission (PSU Process).

## III. Program Enrollment:

The official enrollment in the Major occurs in the third semester of the study program. The students register their preference in our Intranet information system (Siding) in an annual registration process, since this study program began in 2013 (2013 Curriculum or C2013).

C2013		
Cohort	Status	N° Students
2013	Enrolled Students	4
	Students with no preference registered	1
2014	Enrolled Students	24
	Students with no preference registered	4
2015	Enrolled Students	43
	Students with no preference registered	9
2016	Enrolled Students	56

PONTIFICIA UNIVERSIDAD CATÓLICA DE CHILE  
College of Engineering

	<i>Students with no preference registered</i>	24
2017	<i>Enrolled Students</i>	57
	<i>Students with no preference registered</i>	68
2018	<i>Enrolled Students</i>	44
	<i>Students with no preference registered</i>	282

**IV. Bachelor of Engineering Science Degree:**

The numbers below are from the biannual ceremony.

<b>Bachelor of Engineering Science Degree</b>	
YEAR	N° Students
2016	1
2017	16
2018	27
2019	25
Total	69
